9. Hydrocele & Varicocele Pack
10. Erectile Dysfunction Treatment Kit
11. Urethral Dilation Set
12. Componentry and Instrumentation
13. Surgical Gowns

## Who is Clonallon?

Clonallon Laboratories Ltd was incorporated in 2001 to manufacture customised sterile surgical and medical procedure packs for global healthcare market.

Based in a modern facility in Northern Ireland, Clonallon manufacture sterile procedural packs in validated Class 7 Cleanrooms and all our processes and Quality Management Systems are accredited to ISO13485:2016 and MDR 2017/745. Distribution of Clonallon and third-party products is carried out from our warehouse and controlled by our own in-house bespoke software called the Management Information System. All Clonallon manufactured goods are provided with a Unique Device Indicator (UDI) which allows full traceability along the supply chain to an individual patient.

We focus on patient safety by providing single-use procedure packs and contract manufacturing services that put you in control. Firm clinical knowledge has allowed us to establish a trusted reputation in the healthcare industry and has enabled us to further develop and expand our services to client focused pack contract manufacturing. Our corporate ethos is defined by the intent to increase patient safety and reduce the overall burden of HCAs on our healthcare institutions.

Our products have been validated for a shelf-life of three years from the date of manufacture. We have worked closely with Fertility Clinics across the UK and Ireland to develop a product portfolio to suit their clinical requirements and you will find examples of these products within this brochure. However all of our procedure packs are fully customisable to suit your needs.

For any enquires please contact us for more information using the details below.

**CUSTOMISING YOUR PATIENT CARE**

## Why Choose a Customised Procedure Pack?

A Customised Procedure Pack delivers a specific set of disposable medical products provided in a single packed sterile tray format.

### Benefits of using a Customised Procedure Pack:

1. Reduction of preparation times for procedures releasing expensive nursing time for other activities.
2. Standardise procedures and embed the prevention of Healthcare Acquired Infections in everyday practice.
3. Improve efficiency, reducing waiting times by increasing the number of procedures that can be completed
4. Reduced ordering and administration costs.
5. Release more time for direct patient care.
6. Caters for healthcare professional's preference as all packs are fully customisable.
7. Reduction of clinical waste in the theatre – environmentally friendly.
8. Complete traceability of all CE marked components used.
9. Eradication of errors in setting up for procedure.
10. Elimination of the risk of cross infection from a re-usable device.

### Benefits of working with Clonallon:

1. Clonallon has been at the forefront of customised procedure pack design and manufacture for over 20 years. Our competency in this area is second to none.
2. We will work closely with you to develop your customised procedure pack to suit your clinical needs.
3. Samples are provided for evaluation.
4. Once the pack contents have been established, we will ensure optimum stock holdings are maintained to facilitate immediate delivery for recurring orders.
5. All our products are CE marked
6. Our Management Information System ensures complete traceability of components along the supply chain.
7. All our goods are fitted with a Unique Device Indicator.
8. All our packs are manufactured in our cleanroom facility in Northern Ireland. You can be confident of supply, quality and price competitiveness throughout the UK and Ireland.

# The Management Team

## Dermot Dempster

Managing Director

Dermot is the Managing Director of Clonallon® Laboratories Ltd and holds a B.Sc. honours degree in Microbiology, Biochemistry and an MBA in International Business and has a special interest in developing and marketing medical devices which reduce or eliminate infections. Dermot has worked with Johnson & Johnson and with ICON Clinical Research a specialist clinical trial company. Dermot is a keen scuba diver in his spare time.

## Michael Sands

Financial Director

Michael is the Financial Director of Clonallon® Laboratories Ltd and is responsible for the profitable running of Clonallon®. Michael is a member of the Chartered Accountants of Ireland (ACA) which was gained while working with ASM Accountants. Michael won Finance Director of the Year 2022 at the prestigious Irish Accountancy Awards. Michael is a keen golfer in his spare time.

## Tiarnán Conway

Business Development Manager

Tiarnán holds a honours B.Sc. in Genetics and Genomics from Liverpool John Moores University and joined Clonallon® graduate entry programme. Tiarnán is responsible for the introduction of new products into existing and new markets. He also takes a leadership role in ensuring that tender submissions are submitted on a timely and correct basis.

Tiarnán is passionate about the role of new product development to fit the requirements of a modern surgical service. In his spare time Tiarnán is a keen sailor and instructor.
